Amit Pandey

SENIOR ANDROID & MOBILE SDK DEVELOPER

Noida, Uttar Pradesh, India · ap78700@gmail.com · +91 7379363416 · LinkedIn · GitHub

PROFESSIONAL SUMMARY

Nearly 8 years engineering the AppICE Android SDK - push notifications, in-app messaging, geofencing and cross-platform bridges for React Native, Flutter, Cordova and Kony - plus apps live on the Google Play Store.

EXPERIENCE

Android Developer

Oct 2018 - Present

Semusi · Noida, India

Develop and maintain the AppICE Android SDK with features including push notifications, rich notifications, in-app messaging, geofencing, campaign tracking, user and event tracking. Build reusable SDK solutions integrated into native Android, React Native, Kony/Volt MX, and Cordova applications.

Android Developer Intern

Jan 2018 - Aug 2018

Cube Square Technologies · Noida, India

Developed Android applications communicating with backend services using REST APIs, Retrofit, and Volley. Worked on a Bugzilla-based mobile app for issue tracking and content-based Android applications.

EDUCATION

Master of Computer Applications (MCA)

2016 - 2018

DIT University, Dehradun

CGPA: 7.4/10. Specialization in Computer Science.

Bachelor of Computer Applications (BCA)

2012 - 2015

Deen Dayal Upadhyay Gorakhpur University

73% - Foundation in Computer Science.

SKILLS

Android SDK & Platform Development | Java & Kotlin | Push Notifications & FCM | Cross-Platform SDK Integration (React Native, Flutter, Cordova, Kony) | Networking & SSL/TLS Security | Performance & ANR Debugging | Jetpack Compose | MVVM · Room · REST APIs

CERTIFICATIONS

Kotlin Android Development | Java 8 | Android Architecture | Java Design Patterns

PROFESSIONAL PROJECTS

AppICE Android SDK

Android SDK Developer · 2018 - Present · Java / Kotlin / FCM / SQLite / Gradle / API 36

Mobile engagement SDK providing push notifications, in-app messaging, campaign & event tracking, geofencing, and user engagement. Maintained Android compatibility through API 36, improved ANR performance, and integrated SSL/TLS security.

React Native AppICE Plugin

Native Android Integration · 2020 - Present · React Native / Java / Native Modules / npm

Native Android bridge enabling React Native apps to access AppICE SDK features. Built the JS-to-native communication layer supporting callbacks, push notifications, and full SDK feature access.

Kony / Volt MX Wrapper

SDK Wrapper Engineer · 2019 - Present · Java / Kony / Volt MX / Push Notifications

Java-based wrapper exposing AppICE SDK to Kony/Volt MX apps. Handled push notification routing, callbacks, and bridging native SDK features to the Kony JavaScript layer.

Cordova & Flutter Plugins

Plugin Developer · 2021 - Present · Cordova / Flutter / Android Native

Cross-platform plugins for AppICE on Cordova and Flutter. Handled plugin setup, push notification routing, deep links, callbacks, and native-to-hybrid communication.

AppICE iOS SDK

iOS Contributor · Semusi · iOS / CocoaPods / podspec / Swift/ObjC

Contributed to AppICE iOS SDK development including live-events functionality. Worked on SDK packaging and distribution through CocoaPods and podspec.

Vtion

Android Developer · Semusi · Android / Real-time Tracking / Analytics / TRP

Mobile platform for real-time tracking of media application usage for audience research and TRP-related analytics. Contributed to data collection and tracking features.

Searo / SyncNScan / QuTrust

Android Developer · Cube Square · Android / REST APIs / Retrofit / Volley

Contributed to multiple Android products: Searo (grocery workflows), SyncNScan (device protection & cloud backup), and QuTrust (mobile hardware & sensor diagnostics).

PERSONAL PROJECTS - PUBLISHED ON GOOGLE PLAY

Shree Japa App

Java / Android / SQLite · View on Google Play

A spiritual Android app for Japa (mantra chanting) practice. Helps users track, count, and maintain their daily chanting sessions with a clean and focused interface.

Reqtor

Kotlin / Android / Play Store · View on Google Play

An Android utility app published on the Play Store. Built and published independently, demonstrating end-to-end Android app development, deployment, and Play Store distribution.
